Observations..

From Around Town

(BY JAY WHOZIT)

This Sunday, May 11th is Mother's Day. Though many miles may separate mother and child; though their opinions may differ, their love for each other, which is the truest of all loves, unites them for all time under all circumstances. It is Mother who is always forgiving and conciliatory, who forgets the unpleasant and cherishes the pleasant memories—it is Mother whom we honor and to whom we dedicate this Sunday, May 11th... with the advent of warm weather comes the swimming season, with its many hours of delightful pastime and also its many dangers... remember to be careful never go in water over your head unless you are a seasoned swimmer, as well as the many other rules of safety which you should observe... we notice the city has been repainting the parking lines in the business district... this is very commendable, but now that we have the lines it is up to the police to see that automobiles are properly parked within these lines, otherwise it will be a lot of wasted time and money... the May Festival last Saturday night at St. Joseph Academy was really a beautiful affair, and well attended... hats off to Mr. Armitage of the P. Cabins-Cate, who became the first business man in Bay St. Louis to respond to President Truman's appeal to cut prices by announcing a 10% reduction in prices in his restaurant... how about the rest of you merchants getting in line and show your patriotism in helping to combat inflation... the Forest Service of the U. S. Dept. of Agriculture reports that on estimated 75 million acres of denuded and poorly stocked forest land, about one-sixth of the commercial timberland in the U. S. must be planted to trees, if it is to grow timber within the lifetime of the present day children... Mr. Walker Wood, Secretary of State was a visitor on the Gulf Coast on Saturday, spending part of the day in Bay St. Louis... if every person and business establishment in the country would take the money saved on telephone bills this month because of the strike and pool it for some worthy charity, it would amount to quite a tidy sum... don't forget the dance band clinic at Bay High School gymnasium on May 11th, you will enjoy the splendid program which will be presented... the month of May is the month of flowers, and a ride around our town will attest the fact that we have our share of beautiful gardens... "a place for everything and everything in its place" is a prime safety rule for every home... on Tuesday night May 13th, Bay High School will be host at it supper to approximately 120 of its students, comprising the band, boxing team, football team, basketball, teams, Student Prints Staff, chorus, quartet and debating team, the affair will be held in Bay High gym, supporters of Bay High are urged to attend... there were two bids for the building of the proposed Negro Public School, but both were rejected by the School Board of Trustees, because they were far in excess of the amount of funds on hand for that purpose... new bids are being advertised for... it is about time that the business men of Bay St. Louis drop their usual nonchalant attitude and realize that merely having an industry establish themselves in Bay St. Louis is not all that is necessary... We must lend our moral support to help make it successful. We understand the Bay Garment Company is in urgent need of workers... the business people should back this company, and some effort made to help them secure necessary help... certainly the workers are in the county—think—do we need this payroll? Well if we don't get busy we will wake up some morning and find it gone... The Board of Mayor and Aldermen of the Town of Waveland, our thriving sister city, has granted a franchise to the Mississippi Power Company... Congressman Colmer is at it again trying to get an appropriation to rebuild our oyster reefs, which were destroyed by water from the Bonnet Carré Spillway. We hope that the majority of the members of Congress will see it his way... Yes, sir, it is only three months off to election... Candidates for County and District offices are as thick as fleas on a dog's back... much interest is stirring among the candidates and some are really hard at it... with all of the "gossiping" there is very little discussion by the voters... perhaps they have already made up their minds and are not talking about it... Eddie Arceneaux, our Good Year Tire Dealer, spent three days in New Orleans, attending a conference held at the Roosevelt Hotel, by the Goodyear Tire Company.

COLOR AND BEAUTY OUTSTANDING AT ANNUAL S. J. A. MAY FESTIVAL

Miss Gaynel Gex Reigned as Queen with Miss Georgia Rose Staehle as Maid of Honor

A pageant of beauty was enacted at the Saint Joseph Academy Auditorium on last Saturday, May 3rd, when Miss Gaynel Gex, daughter of Mr. and Mrs. Walter Gex, Jr., May Queen held court with her maid of honor, Miss Georgia Rose Staehle, daughter of Mr. William Staehle, and their twenty-four ladies in waiting. Each maid and her duke had, as attendants a Junior Maid and a Junior Duke.

The entrance rose on a lovely garden scene, where the king and duke of honor awaited the coming of the queen and maid of honor. The garland bearers, carrying ropes of roses, preceded the entrance of the court, and as each maid and junior maid entered, they were met in the center of the hall by their respective duke and junior duke and escorted to the foot of the stage. The maids and little maids wore floor length dresses of pastel shades. The maids carried arm bouquets, while the little maids carried old fashioned bouquets.

The maid of honor wore a gown of white net. The drop shoulder bodice was form fitting with a bouffant skirt caught up in scallop effect with tiny rose buds. She carried American Beauty roses.

The queen, a petite brunette, was attired in an exquisite gown of white net and lace. The form-fitting waist continued into the very full skirt, forming points. Panels of net with lace medallions edged in net ruffles, set in patterns of three into the skirt. White lace gloves were worn.

The mantel of white net was trimmed with bands of silver metallic cloth and white satin braid. The collar of the mantel was of metallic cloth with a band of rhinestones in a leaf pattern across the back. Miss Gex wore a crown of white roses and carried a very lovely cascade of American Beauty roses.

The King was Cadet James Rennel of U. S. Merchant Marine—Cadet School.

The Junior attendants for the king and queen were Sharon French and Bobbie Benigo. Train bearers were Patsy Horlock and Patsy Anderson.

Preceding the grand march, Miss Sandra Scudde rendered two beautiful vocal selections. The young ladies of Sister Francis' class danced with perfection, the May Pole Dance. Music for the evening was furnished by the Bay High School Orchestra, under the direction of Prof. Pat Rooney.

A complete list of the names of those taking part in the court will be found elsewhere in this issue.

SAM L. FAVRE, JR. ANNOUNCES FOR CLERK OF COURTS

SAM L. FAVRE, JR.

The Sea Coast Echo is hereby authorized to announce the candidacy of Mr. Sam L. Favre, Jr., for the office of Clerk of the Chancery and Circuit Courts of Hancock County. His statement to the voters of Hancock County follows:

To the Voters of Hancock County: I take this as a means of announcing my candidacy for the office of Clerk of the Chancery and Circuit Courts of Hancock County.

It has been a privilege to serve the people of this county as Superintendent of Education since January, 1944. Through my administration I have been faced with very serious problems but I feel that I have faced them successfully because of the progress that has been made in the entire school system of this county.

During the emergency there has been a severe shortage of teachers, transportation equipment, and many other things necessary in the operation of schools. Certainly it has taken a great deal of work, patience and cooperation from the general public to deal with these obstacles. Our schools have functioned as efficiently as could be expected in this trying period when schools throughout the nation were at a low ebb.

Since I began serving you as County Superintendent, I have raised teachers salaries to the highest level probably ever maintained in this county, and inaugurated a wage scale based on qualifications and experience. I have managed to secure teachers where many schools throughout the state and nation have had to close their doors. Last year I promoted a local summer school program for teachers so that it would not be necessary for them to leave the county in order to get additional college credit. Among various other things, I have promoted school lunch programs, an equitable distribution of free textbooks, and efficiency in instruction and record-keeping.

As a life long resident of this county and a graduate of its public schools, I am well acquainted with the conditions and problems that exist here. Now that the schools are in a sound financial position, I believe I can render a greater service to the people as Clerk of Courts. The financial structure of the county and the efficient performance of the various duties of the Clerk's office depend upon the selection of a person who is well trained for the job.

I received my Bachelor of Science degree from Miss. State College. While at college, I had four years of military training and was scheduled for a commission in the Army of the United States, but was rejected on a physical examination. I was later sent to Camp Shelby for a pre-induction physical and was again rejected.

Having completed some studies in the fields of business and finance, I realize that this training will help me immeasurably in performing the duties of the office to which I aspire. I stand for the liquidation of all indebtedness, the promotion of business and industry, and the construction of better roads. I am also an advocate of good schools; and, even though I shall not be serving them in an official capacity, my support can always be expected. Now, more so than ever before, there is a need for capable, efficient, and well trained leadership. I am positive that everyone recognizes this fact, and that the voters will bear this in mind when they go to the polls to select their officials. With a sincere pledge to render courteous, honest, and efficient service, I hereby announce my candidacy for Clerk of Courts.

Respectfully submitted, SAM L. FAVRE, JR.

Jake Morreale Jr. Announces Withdrawal As Candidate For Supervisor Of Beat 5

Several months ago I made my formal announcement as candidate for Supervisor Beat 5, so to my many friends, especially those I called upon soliciting their support in my candidacy for Supervisor and to the voters of District 5. I wish to offer an explanation why I have made the decision not to run for the above office.

Due to my physical condition and the numerous operations that I have undergone recently, I have been advised by my physicians that it would be better for me not to attempt campaigning for a political office at this time or it may prove to be injurious or handicap me in my early recovery to good health.

In closing I wish to thank my friends for their encouragement and assistance I know I would have received had I continued in the race, however I trust that you will bear with me that for the above reasons I am right in withdrawing.

Sincerely, Jake Morreale, Jr.

Crowning of the Blessed Virgin Mary. Held at the Church of Our Lady of the Gulf

On last Sunday afternoon at five o'clock the annual celebration of the Crowning of the Blessed Virgin Mary as Queen of Heaven and Earth was held at the Church of Our Lady of the Gulf.

Due to repairs that are being made in the church at this time, the regular procession of the little children who took part in the celebration was omitted, and only the little girl who placed the gold crown upon the head of the statue of the Blessed Mother, and her two little maids, entered the church in procession.

Right Reverend Monsignor A. J. Gmelph, who conducted the services, delivered a short sermon, stating that an honor was being paid to the Mother of God, who is Queen of Heaven and Earth, that being the Mother of Christ, who was a King, for above his Cross upon which he was crucified was placed the words "King of the Jews" and certainly if He was a King, his mother was a Queen.

Following the sermon Little Inez Adele Favre, who wore the gold crown, accompanied by her two little maids Helen Wolfe and Janice Garriga, proceeded to the main altar of the church, and thence to the statue of the Blessed Virgin Mary, where she placed the gold crown upon her head.

The Crowning of the Virgin, was followed by Benediction of the Blessed Sacrament.

Veterans' News

QUESTIONS & ANSWERS

Q. I am an honorably discharged World War II veteran, and would like to know of what benefit is a guaranteed loan if I purchase a home under the G. I. Bill?

A. The guaranty provides or increases the security you have to offer for a loan by the amount of the guaranty; it tends to induce the lender to lend more nearly the full purchase price of the property and to give you a better rate of interest and finally 4 percent of the amount guaranteed is paid to the lender by VA and is an outright gift to you.

Q. My wife and I plan to purchase a \$9,000 home. We are both World War II veterans. Can we acquire the property jointly and so increase the amount which may be guaranteed?

A. Yes, you may acquire the property jointly, but the maximum guaranty may not exceed 50 percent of the loan.

Q. I have a G. I. loan on my home and would like to know if I can have the loan extended?

A. Yes, you can have the loan extended if the lender is willing to give you more time, but the extension must provide for complete payment of the loan within the 25-year maximum period provided by law.

Q. What is the largest amount I can borrow under the G. I. Bill and still have the loan guaranteed?

A. There is no limit on the amount which can be borrowed under G. I. Bill. The limitation by law is on the size of the government guaranty and not upon the size of the loan.

The date of the next meeting will be the first Tuesday after the opening of school. Mrs. L. S. Elliott suggested that during the days of the registration of the children in September, members of the club volunteer at least an hour's service, registering the mothers as members of the club. Complete details will be announced in the publication prior to the opening date. The meeting was closed with a prayer by Mother Blanche.

Individual Security

With only five percent of the world's population, the United States is expected to pay more than half the operational cost of the United Nations. This is convincing proof of the superiority of the American economic system.

Yet some form of socialism is being agitated in every land as a better political scheme than free enterprise. England was the most recent nation to succumb to the seductive promises of socialism as a surer way to security.

The English suffered more through a bitter winter under socialism than they suffered during the blitz under capitalism. Though it may be too early to count England out, commentators write frankly of the self-liquidation of her empire and she admits she is no longer financially able to assume her world responsibilities.

Though dictatorship nations, like Russia, may prosper for a spell on socialism or communism, no democratic-socialistic state has ever succeeded. Freedom and socialism never mix.

The English should have known that the best freedom from fear is courage. The stout heart of Britain began to break when its people sought an easier way to plenty. There is no easy way; socialistic or democratic, to the Promised Land.

And the best freedom from want is work, hard, persistent, tireless work. A people can prosper only as they produce. When the British cast aside the "do-and-dare," the "blood, toil and tears" leadership of a courageous Churchill, for the softer security of socialism, they courted economic and political disaster. Socialism is a disease of the weak.

A people who seek an easy way to economic freedom are sunk. Life is an eternal struggle, achievement a glorious venture and strength a virtue. America need fear no nation as long as people are brave, industrious, frugal and intelligent—as long as we face hardship or meet responsibility and "can take it" we need fear nothing but our own weakness.

Crumbled civilizations cry out from the past that the only sure way a people can prosper is through production and thrift. There is no primrose path to individual security, no smooth or plush-covered road to community or national achievement. The dust of empires tells us that the way that leads to the abundant life is steep, covered with stones and marked with the crosses of human sacrifice.

This Gulf Coast will prosper in proportion as its citizens strive, save and invest. Only the diligent and the frugal deserve or ever achieve individual security.

ORDER AUTHORIZING ISSUANCE OF \$4,400.00 BONDS IN SALEM CONSOLIDATED SCHOOL DISTRICT

Order of the Board of Supervisors of Hancock County, Mississippi, in Connection with the Issuance of the Salem Consolidated School District Bonds in the sum of \$4,400.00.

Whereas, there has been presented to the Board of Supervisors of Hancock County, Mississippi, a petition signed by a majority of the qualified electors of the Salem Consolidated School District, praying that bonds of the Salem Consolidated School District be issued in the sum of \$4,400.00 for the purpose of erecting, repairing and equipping the school building in said school district, said bonds to be issued under and by virtue of Section 6370 of the Mississippi Code of 1942, and Acts amendatory thereto and supplemental thereto.

Whereas, the Board of Supervisors having considered said matter finds and adjudges as follows, to-wit:

That the said Salem Consolidated School District is a regularly constituted line consolidated School District with territory in Hancock County, Mississippi, and Pearl River County, Mississippi.

That the petition is signed by a majority of the qualified electors residing in the Salem Consolidated School District.

And the Board further finds and adjudges that the Superintendent of Education of Hancock County, Mississippi, and the Superintendent of Education of Pearl River County, Mississippi have filed a report with

the Board of Supervisors showing the amount of the assessed valuation of all taxable property situated in each of the Counties embraced in the Salem Consolidated School District and also showing the proportionate amount of the said bond issue to be issued for each of the said counties.

And the Board of Supervisors further finds and adjudges that the assessed valuation of all of the taxable property in the Salem Consolidated School District situated in Hancock County, Mississippi is \$9,235.00, and that the valuation of all of the taxable property situated in Salem Consolidated School District situated in Pearl River County, Mississippi, is \$35,635.00. And that the said total valuation of all taxable property situated in the Salem Consolidated School District is the sum of \$44,870.00.

The Board of Supervisors further finds and adjudges that the proportionate part of the bonds desired to be issued for each of the said Counties is as follows:

Hancock County proportionate, part \$905.60.
Pearl River County proportionate part \$3,494.40.

The Board of Supervisors further finds and adjudges that the said bonds in the sum of \$4,400.00 added to all floating and bonded indebtedness of the said Salem Consolidated School District will not exceed 10% of the assessed value of the taxable property situated in the said Salem Consolidated School District.

And the Board of Supervisors further find and adjudges that the Salem Consolidated School District is in need of erecting, repairing and equipping the school buildings in said school district and that it would be to the best interest of the Salem Consolidated School District and the school children residing in the said School District and the patrons tax payers of the said School District residing in the said School District for the said School District to erect, repair and equip the School Building of the said School District.

The Board of Supervisors further find and adjudge that it would be to the best interest of the Salem Consolidated School District to have the said bonds issued for the purpose aforesaid.

The Board of Supervisors further find that Pearl River County, Mississippi has the largest assessed valuation of taxable property situated in the Salem Consolidated School District and that by reason thereof the Board of Supervisors of Pearl River County, Mississippi under the law, is required to issue the said bonds petitioned and prayed for.

Therefore, it is hereby ordered and adjudged by the Board of Supervisors of Hancock County, Mississippi, that it is the intention and purpose of the said Board of Supervisors to do all things necessary to the issuance of and to issue the negotiable bonds of the Salem Consolidated School District in the manner provided for by law, and especially Section 6370 of the Mississippi Code of 1942, in the amount of Hancock said \$4,400.00 Bond Issue which

County's proportionate part of the proportionate part of said sum for Hancock County, Mississippi is \$905.60, said bonds bearing interest not to exceed 6% per annum for the purpose of erecting, repairing and equipping the School Buildings in said School District, said bonds to be serial bonds to be issued under the provisions of Section 6370 of the Mississippi Code of 1942 and amendments thereto.

So ordered and adjudged on this 14th day of April, 1947.

SOIL CONSERVATION NEWS

By J. L. Bishop
A complete soil and water conservation program is well visualized thought-out plan, complete, concise and basically sound, using the latest, wisely, treating each acre accordingly to its needs.

All land is not alike. Each field or acre must be used for things it is best suited to produce, and protected according to its needs. All measures that help keep the land productive such as terraces, contouring, organic matter, grass, kudzu, crop rotation, fertilizer, legumes, shrubs, trees, fish ponds and wildlife borders, drainage if the land is too wet, and irrigation if it is too dry. All of them are conservation tools. It is conservation whether the practices are used separately or together. In other words, soil and water conservation includes any and all measures that will make the land produce more abundantly without damaging it.

Bert Solves

the Labor Problem

You hear a lot about capital and labor nowadays, as if the two could never get together. But look at Bert Childers—who has 320 acres of producing land, a fair-sized herd of cattle, and two farm hands working for him.

If you called Bert a "capitalist" he wouldn't know what you meant, and neither would Spike and Sandy, the hired men. Bert works side by side with both of them; and in the evenings they sit around the fire together—sharing a friendly glass of beer or two.

If anybody has a beef—whether it's about wages or hours or equipment—they talk it over at those friendly evening sessions.

I don't say all labor problems are as simple as Bert's. But from where I sit, the basic principle applies to any farm or factory or business: A principle of confidence and mutual respect, of daily talks together in a friendly and congenial atmosphere.

ORTTE THEATER "LATE SHOW" FRIDAY 10:30 P. M. "THE JOLSON STORY"

Sunday, Monday & Tuesday
Presented in Technicolor
With Larry Parks and
Evelyn Keyes

Approaching a record for the use of music in motion pictures, twenty-seven songs will be heard in Columbia's Technicolor music-drama, "The Jolson Story." In addition, there are instrumental dance numbers and Dixieland Jazz pieces. Most of the melodies are used in their entirety. These songs represent a major portion of the musical side of Al Jolson's career, on which the film is based. While most of them were sung by Jolson on the stage, the Dixieland pieces originated with a Negro orchestra Jolson heard in New Orleans during his early days in show business.

In order to transfer this imposing number of compositions to the screen, M. W. Stoloff, Columbia music head, assembled what he said was the largest number of arrangers in the history of Hollywood. Some of the famous tunes that they worked with and which appear in the film are "California, Here I Come," "Swanee," "You Made Me Love You," "Waiting for the Robert E. Lee," "April Showers," "I Want a Girl," "About a Quarter of Nine," "Rainbow Round My Shoulder," "Liza," "Rock-A-By Your Baby," "By the Light of the Silvery Moon" and "My Mammy."

Heading the cast of "The Jolson Story" are Larry Parks, who plays the Jolson role, Evelyn Keyes, as a famous dancer who becomes his wife, William Demarest and Bill Goodwin. Alfred E. Green directed for producer Sidney Skolsky. The screenplay, written by Stephen Longstreet, carries through nearly forty years of Al Jolson's career, highlighting his early days in vaudeville, all his Broadway hits, and his subsequent success in films.

BIRTHDAY GIFT FROM MISSISSIPPI

President Truman here receives from Irby Turner, (left) of Belzoni, president of the Delta Council, a silver miniature of the historic Mississippi River Steamer Natchez, tendered by the council as a birthday present. Sen. James O. Eastland (right) arranged for the presentation at the White House after the President was forced to cancel a Delta speaking engagement at Cleveland, May 8, Mr. Truman's sixty-third birthday.

COUNTY AGENT NOTES

Reports show that farmers intend to plant much less acreage to corn this year than last. Except for 1941, this country will plant the lowest acreage to corn in 53 years. Mississippi farmers intend to plant the smallest acreage since 1930.

The nation's acreage of oats for harvest will be less than last year, but the state's acreage will be 24 percent larger. The state's increase in oats for grain will likely not offset the indicated reduced corn crop.

Hay acreage in Mississippi and in the nation will be more than last year.

These reports add up to the fact that Mississippi farmers will be even shorter of grain and hay, and that prices are extremely high and will probably not be reduced but little for some time yet.

With these facts in mind, farmers should use all the nitrate fertilizer that can be made available on corn. The use of fertilizer is the most effective way to increase corn production. A larger acreage planted on good land will also increase production.

The yield from every acre that can be planted will not produce enough corn to meet the needs. This is also true for hay. More soybeans, cowpeas, Alyce clover, sorghum and Sudan grass can be planted to add to the growing lespedeza crop.

RED CROSS NOTES

RED CROSS ASKS FULL SUPPORT OF CHILD HEALTH DAY

Better Health Through Better Food
Is Arch Slogan

Helping the nation's children build better health through better food is a primary concern of American Red Cross Nutrition Service," said Melva B. Bakie, national director, in a statement urging all out support of the ideal symbolized by Child Health Day, May 1.

"Through Red Cross Chapters," Miss Bakie continued, "nutrition information is made available to mothers, teachers, school lunch room workers and the staff of day care centers and nursery schools. Red Cross Nutrition Service also cooperates with other community and national agencies in activities dedicated to the welfare of children. From 1941 to 1946 some 750,000

persons completed Red Cross Nutrition Classes, and more than 1,500,000 attended other Red Cross activities featuring nutrition education.

RED CROSS URGES SWIMMING SAFETY AS SUMMER NEARS

Most Drownings Occur in Brief
Four Months Period

Approximately 60 percent of the nation's 7,000 yearly drownings occur from May through August, according to the American Red Cross Water Safety Service.

The best way to insure your safety in the water, the Red Cross says, is to enroll in a swimming course. Graduated courses from beginner to swimmer and junior and senior life saver are available through Red Cross chapters.

To all swimmers and would-be swimmers the Red Cross recommends:

1. Select a safe place for bathing,

Will we LOSE the PEACE?

Today across this troubled earth some 450 million human beings — one-fifth of the earth's population — extend the hand of comradeship and loyalty to us here in America.

We have our chance now to be that friend. If we turn our backs, China must and will find other friends and loyalties. Peace in Asia is vital to our own peace. It will be well to have China's cooperation as a friend and ally in the world of today and tomorrow.

HEALTH DEPARTMENT EMPLOYS NURSE

On May 1, the Hancock County Health Department secured the services of nurse, Doris Letig as Public Health nurse.

The Health Department is indeed fortunate in getting Mrs. Letig, as she has many years experience in nursing. For the past three years she has been with the Harrison County Health Dept.

Mrs. Letig is a native of Pass Christian, and is well known along the coast.

—Honorable Francis J. Bopp, Candidate for Sheriff and Tax Collector of Hancock County, has taken time out from his arduous campaign duties and is spending a few days with his family at their home in New Orleans.
—Mr. and Mrs. C. L. Wagner, Dr. M. E. Wagner have returned to their home in Tulsa, Oklahoma, after spending several weeks at Hotel Reed. The party had several fishing trips and on one of these brought in quite a haul. They fully appreciated the attractions on the coast, and especially the fishing, on the program.

—Miss Irma Mae Kenney, Gulf Park, spent the past week end here with her parents, Mr. and Mrs. Leo Kenney.
—Miss Barbara Drescher, daughter of the O. A. Dreschers and a Newcomb Freshman was one of the eight young ladies who were selected as ribbon girls at the Horse Show held in New Orleans on Sunday, May 4.

—At the recent annual Department of Music Recital at Gulf Park College, Miss Irma Kenney appeared on the program and played Prelude in C Sharp Minor. Miss Kenney was rated as one of the best performers and especially the fishing, on the program.
